

10/11/95

Bill Mills
PO Box 1119
Hughson, CA 95326

Dear Bill,

Please excuse the haste. By the time I caught up with the long weekend mail and made the packages to go out this morning it was my bedtime and this morning after I leave for my early-morning walking I've blood testing, physical therapy, and soon after I'm home have to leave for the dermatologist, regular visit. He's taken three cancers off successfully. By the time we are home the mail will be here. And yesterday I found a chapter I'd written for the Mailer book and forgotten. After I inserted it where I think it belongs I began to wonder and have more checking to do before getting into any work today! If it is not one thing it is two!

Thanks for the Olympia. I think I see how I can keep two machines on two stands and still be able to pass them to leave my desk. Use the Olympia for letters to look better and pound the hell out of this ^{work} when I write. By switching stands.

I've also thought of something I'll ask of you when you borrow the unedited ms of Case Open, then Hoax. I'd like to know the chapter(s) in which I show that the official evidence proved that Oswald was not and could not have been on that sixth floor at the time of the shooting.

I'm getting to the end of the long Mailer ms and I may want to insert it in that ms. You'll see the size when you are here.

Marketing the book as a set is beyond us and I doubt that Hood, which will own it all, will think in those terms. However, if someone else does, which I doubt, Hood can do it. But to give you an idea of the actualities, there has yet to be a mention of Case Open or of NEVER AGAIN! in any of the media. And that is how people learn that books are available.

Whitewash I and Accessories After the Fact are the basic books on the assassination. I regret that Meagher, whose book is magnificent, did no more. She was a very talented woman. Her records, by the way, are already at Hood.

We look forward to your coming, and

many thanks,

Harold
